SUMMARY

Full-stack developer in the final year of an engineering degree (Information Systems, ENSIASD) with **five professional experiences**: production enterprise web apps, real-time platforms, blockchain integrations and AI-driven automation, from front-end (React, Next.js, TypeScript) to back-end (Node.js, NestJS, Django) and deployment (Docker, Kubernetes, CI/CD). Looking for a **6-month end-of-studies internship in software engineering**.

EDUCATION

Engineering Degree, Management & Governance of Information Systems (MGSI) | ENSIASD, Taroudant | *2024 - Present*
Key courses: Software Engineering, Databases, AI & Machine Learning, ERP Systems, Business Process Management.
DUT in Computer Science (2-year technical degree) | EST Essaouira | *2022 - 2024*

PROFESSIONAL EXPERIENCE

Full-Stack & AI Automation Intern | EtudiaLab, Morocco | *04/2026 - 06/2026*

- Designed and built on my own the full architecture of **EduTrack**, a school management platform: **3 web apps and 1 mobile app** (Python Django REST Framework back-end, React and Vite front-end, REST APIs).
- Built AI-based automation workflows to streamline internal processes.
- Delivered Figma mockups, UML diagrams, specifications, tests and technical and user documentation, working in Agile with CI/CD.

Web3 & Blockchain Developer (Freelance) | 44you Agency | *12/2024 - 06/2026*

- Developed a complete game for an agency client and its integration with the **XRPL (XRP Ledger)** blockchain: social and room system, item and furniture system, on-chain features.
- Ran the engagement independently, from requirements to delivery.

Full-Stack Developer Intern | Marsa Maroc (Port Authority), Agadir | *06/2025 - 09/2025*

- Developed and maintained enterprise web applications with **React.js, NestJS, TypeScript, Prisma and PostgreSQL**, with responsive cross-browser interfaces.
- Took part in code reviews and architecture discussions; shipped features to production with cross-functional teams.

Full-Stack Developer | Stryve Solution, Agadir | *04/2024 - 07/2024*

- Designed a Blockchain/Web3 e-commerce platform: architecture, data model, business workflows, smart-contract secured transactions and technical documentation.

Android Developer Intern | Flawko, Marrakech | *09/2023 - 12/2023*

- Developed Android applications in Java together with the design team.

PERSONAL PROJECTS

Arcade Gaming Blockchain Platform | Next.js, NestJS, Prisma, Docker, AWS, Sui | *2025 - 2026*

- Multiplayer gaming platform: scalable back-end, mobile controls, smart-contract integration.

Anime Racers | Node.js, PostgreSQL, Redis, Socket.io, Docker | *2025*

- Real-time application with a provably fair mechanism (HMAC-SHA256), Solana wallet integration and containerized deployment.
